Partner to Care

What is Partner to Care?

Partner to Care is an initiative by the Ng Teng Fong General Hospital (NTFGH) and Jurong Community Hospital (JCH) to support caregiving right from the beginning stages at our hospitals. It aims to help extended caregivers gain confidence in supporting their loved ones in regaining health.

We believe that by creating a Nurse-Caregiver partnership, our caregivers will feel supported in their caregiving journey.

Supporting Our Extended Caregivers

Extended caregivers will receive guidance and support from our healthcare professionals when carrying out their caregiving duties in the hospital. They will be equipped with the practical knowledge and techniques to provide safe and optimal care for their loved ones, as well as gain exposure to the various tasks and responsibilities required in caregiving.

- Accompany their loved ones in rehabilitation programmes and/or social activities.
- Engage in elder-sitting/companionship.
- Motivate their loved ones to exercise, encourage ambulation, and improve their range of motions.
